# INSTRUCTIONS FOR SCHEDULE BIO

**Purpose of Schedule**—The application and credit certification schedule is to report the number of gallons of biodiesel produced and/or blended in this state. Re-blending of blended biodiesel does not qualify for this credit. The Department of Revenue will certify the amount of biodiesel credit for each taxpayer. It is effective for biodiesel produced and/or blended on or after January 1, 2005. The taxpayer is not entitled to the credit for biodiesel produced and/or blended in another state.

The credit rate is up to \$1 per gallon with a total cap for all taxpayers not to exceed \$1,500,000 annually. There is no carryforward for any unused credit.

To ensure proper processing, fax or e-mail Schedule BIO to the Department of Revenue no later than January 15 following the close of the preceding calendar year. Schedules postmarked or sent after January 15 are void. Credit certification cannot be guaranteed for schedules sent through regular mail.

**Fax Number:** (502) 564-3392

**E-mail**

KRC.WEBResponseEconomicDevelopmentCredits@ky.gov

The Department of Revenue will confirm the receipt of the application. If you do not receive confirmation within two weeks of submitting the application, contact the Corporation Income and License Tax Branch at (502) 564-8139.

The Department of Revenue will issue the credit certificate, listing the amount of credit available, by April 15 following the close of the preceding calendar year. This credit certificate shall be attached to the filed income tax return.

**General Instructions**—For the calendar year, enter the applicable year.

Check the appropriate entity type. If taxed as entity type other than corporation, general partnership or individual, check "Other" box.

**Identification Number**—For an individual, enter the Social Security number; for a general partnership, enter the FEIN.

## Part I Instructions

**Line 1**—Enter the number of gallons of biodiesel produced in the state for the calendar year.

**Line 2**—Enter the number of gallons of biodiesel blended in the state for the calendar year. Re-blending of blended biodiesel does not qualify for this credit.

## Part II and Part III

These parts are to be completed by the Department of Revenue to determine the biodiesel credit for each taxpayer. Part III is used if the total amount of approved credit for all biodiesel producers and blenders exceeds the annual biodiesel tax credit cap.

## Part II Instructions

**Line 1**—This is the biodiesel credit as determined by the Department of Revenue. If the approved credit exceeds the biodiesel tax credit cap, then the credit is determined by the department in Part III. It is a nonrefundable credit.

If the biodiesel producer or blender is a general partnership, use Schedule BIO (K-1). In the case of a biodiesel producer or blender that has a fiscal year end, the approved credit shall be claimed on the return filed for the first fiscal year ending after the close of the preceding calendar year.

## Part III Instructions

The Department of Revenue determines the total approved credit. If it exceeds the biodiesel tax credit cap of \$1,500,000, the department will compute each taxpayer's approved credit based upon a fraction the numerator (Line 1(a)) being the credit approved for the taxpayer and the denominator (Line 1(b)) being the total credit approved for all taxpayers. The biodiesel tax credit cap is multiplied by this fraction to determine each producer's and/or blender's approved credit.
