## INSTRUCTIONS FOR SCHEDULE QR

Effective July 15, 2002, Kentucky law permits a credit against income tax liability for the construction of research facilities. "Construction of research facilities" means construction, remodeling and equipping facilities in this state or expanding existing facilities in this state for qualified research and includes only tangible, depreciable property, and does not include any amounts paid or incurred for replacement property. The credit is available once the tangible, depreciable property is placed in service. "Qualified research" means qualified research as defined in Section 41 of the Internal Revenue Code.

**Purpose of Schedule**—This schedule is to be used by corporations and general partnerships to determine the credit against income tax liability allowed for completion of research facilities in accordance with KRS 141.395. It is also used to record the credit claimed each tax year. A copy must be submitted each year until the full credit is utilized or the 10-year carryforward period has expired. Complete a separate schedule each year that a new project qualifies.
