## GENERAL INSTRUCTIONS

The 2002 General Assembly amended KRS 154.22-010 to 154.22-100, effective on July 15, 2002. Projects that received preliminary approval from the Kentucky Economic Development Finance Authority (KEDFA) prior to July 15, 2002, and have entered into a financing agreement no later than June 30, 2003, shall be subject to KRS 154.22-010 to 154.22-100 as in effect prior to July 15, 2002.

Due to legislation passed by the 2005 General Assembly, S corporations, limited liability partnerships (LLPs), limited liability companies (LLCs) or similar entities created with limited liability for the partners are now taxed as corporations. The economic development credits are taken at the entity level and are not passed through to the shareholders/partners.

A corporation approved for more than one economic development project and that has total allowable credits for the taxable year greater than the corporation's income tax liability must complete Schedule TCS.

**Date Financing Agreement was Executed or Activation Date**—For projects which received preliminary approval from the Kentucky Economic Development Finance Authority (KEDFA) prior to July 15, 1996, enter the date the financing agreement was executed. For projects which received preliminary approval from KEDFA after July 15, 1996, enter the date established by the approved company as the activation date for implementation of the inducements authorized by the financing agreement.

## Part I—Tax Liability Method

For tax years beginning on or after January 1, 2005, corporations are required to pay the greater of tax computed on taxable net income, an alternative minimum calculation using Kentucky gross profits or Kentucky gross receipts, or a minimum \$175. Once the tax liability is computed on Form 720, Form 720S, Form 725 or Form 765, the KREDA credits are to be calculated using the same method. If the greatest tax liability is calculated on taxable net income, KREDA tax credits are based on income from the project. If the greatest tax liability results from the alternative minimum calculation, then KREDA tax credits are based on Kentucky gross receipts or Kentucky gross profits from the project. Tax credits cannot reduce the tax liability below the \$175 minimum.

Check the appropriate box for the method in which the tax liability was computed then continue to the corresponding part for the credit calculation.
