INSTRUCTIONS—SCHEDULE KIRA

PURPOSE OF SCHEDULE—This schedule is to be used by any corporation which has entered into a revitalization agreement for a Kentucky Industrial Revitalization Act (KIRA) project to determine the KIRA income tax credit allowed against the Kentucky corporation income tax liability in accordance with KRS 141.403 on the income from the project.

GENERAL INSTRUCTIONS

Due to legislation passed by the 2005 General Assembly, S corporations, limited liability partnerships (LLPs), limited liability companies (LLCs) or similar entities created with limited liability for the partners are now taxed as corporations. The economic development credits are taken at the entity level and are not passed through to the shareholders/partners.

Also, 2005 legislation repealed corporation license tax effective for tax periods ending on or after December 31, 2005. KIRA license tax credits will no longer apply.

A corporation approved for more than one economic development project and that has total allowable credits for the taxable year greater than the corporation's income tax liability must complete Schedule TCS.

Part I—Tax Liability Method

For tax years beginning on or after January 1, 2005, corporations are required to pay the greater of tax computed on taxable net income, an alternative minimum calculation using Kentucky gross profits or Kentucky gross receipts, or a minimum \$175. Once the tax liability is computed on Form 720, Form 720S, Form 725 or Form 765, the KIRA credits are to be calculated using the same method. If the greatest tax liability is calculated on taxable net income, KIRA tax credits are based on income from the project. If the greatest tax liability results from the alternative minimum calculation, then KIRA tax credits are based on Kentucky gross receipts or Kentucky gross profits from the project. Tax credits cannot reduce the tax liability below the \$175 minimum.

Check the appropriate box for the method in which the tax liability was computed then continue to the corresponding part for the credit calculation.

If the corporation has operations other than the KIRA project, it must attach schedules reflecting the computation of the net income from the KIRA project in accordance with KRS 141.403(6)(a)* or KRS 141.403(7)(a).**

used, a copy of the letter from the Department of Revenue approving the alternative method must be attached to this schedule.
