6. ___/_____				
7. ___/_____				
8. ___/_____				
9. ___/_____				
10. ___/_____				
11. ___/_____				

INSTRUCTIONS FOR SCHEDULE QR

The Qualified Research Facility Tax Credit is applied against the individual income tax imposed under KRS 141.020, the corporation income tax imposed under KRS 141.040 and the limited liability entity tax (LLET) imposed under KRS 141.0401. The amount of credit claimed against the corporation income tax and the LLET can be different.

Tax Preparers' Note: The amount of credit claimed from Part I, Line 4, and the resulting balance of credit available must be calculated separately for income tax and the LLET. If the balance available for the income tax or the LLET reaches zero, no further credit is allowed against that tax liability. For example, any balance available for income tax cannot be used as a credit against the LLET nor can any balance available for the LLET be used as a credit against the income tax liability.

Effective July 15, 2002, Kentucky law permits a credit against the income tax liability and the LLET liability for the construction of research facilities. "Construction of research facilities" means construction, remodeling and equipping facilities in this state or expanding existing facilities in this state for qualified research and includes only tangible, depreciable property, and does not include any amounts paid or incurred for replacement property. The credit is available once the tangible, depreciable property is placed in service. "Qualified research" means qualified research as defined in Section 41 of the Internal Revenue Code.

Purpose of Schedule—This schedule is used by taxpayers to determine the credit against the income tax liability and the LLET liability allowed for completion of research facilities in accordance with KRS 141.395. It is also used to record the credit claimed each tax year. A copy must be submitted each year until the full credit is utilized or the 10-year carryforward period has expired. Complete a separate schedule each year that a new project qualifies.

General Instructions—If the entity type is not listed, check the *Other* box and list the entity type.

Identification Number—For an individual, list the Social Security number; for a general partnership, list the FEIN.

Part I Instructions

Line 1—Enter the cost of construction of the qualified cost.*

Line 2—Enter the cost of equipment.*

Line 3—Enter the sum of Line 1 and Line 2.

Line 4—Enter the amount of Line 3 multiplied by 5 percent (.05).

Part II Instructions

Line 1—LLET Credit—Enter the amount of current-year credit claimed against the LLET. This credit cannot reduce the LLET below the \$175 minimum.

Line 2—Corporation Income Tax Credit—Enter the amount of current-year credit claimed against the corporation income tax.

Line 3—Individual Income Tax Credit—Enter the amount of current-year credit claimed against the individual income tax.

Part III Instructions

Column A—Enter the month and year the tax credit is taken for this project.

Column B—Enter for year 1, the allowable credit from Part I, Line 4. Enter for each succeeding year, the difference between Column B and Column C. Compute a separate balance for LLET and for income tax.

Note: The 2007 beginning balance of the Qualified Research Facility Tax Credit for LLET will be the same as the balance for income tax purposes.

Column C—Enter the amount of credit used for that year. If the amount is zero, enter -0-. Enter on Schedule TCS, Part II.

*** Attach a schedule of the tangible, depreciable property included in Lines 1 and 2 listing the date purchased, date placed in service, description and cost.**
