INSTRUCTIONS
PERSONAL PROPERTY TAX RETURN
(REVENUE FORMS 61A500)
Definitions and General Instructions

This tax return includes instructions to assist taxpayers in preparing Revenue Form 61A500. These instructions do not supersede the Kentucky Constitution or applicable Kentucky Revised Statutes.

Taxpayer—All individuals and business entities who are communications service providers or multi-channel video programming service providers and who own, lease or have a beneficial interest in taxable tangible property located within Kentucky on January 1 **must** file the personal property tax form for communications service providers and multi-channel video programming service providers (Revenue Form 61A500).

This return and instructions do not apply to **real property, registered motor vehicles, apportioned vehicles, commercial watercraft companies, distilled spirits held in bonded warehouses and public service companies taxed under the provisions of KRS 136.120**. Public service corporations must file the Public Service Company Tax Return, Revenue Form 61A200. Commercial watercraft companies must file the Commercial Watercraft Property Tax Return, Revenue Form 61A207. Report distilled spirits in bonded warehouses on the Annual Report of Distilled Spirits in Bonded Warehouses, Revenue Form 61A508.

Intangible property is any property other than real and tangible personal property that represents evidence of value or the right to value under law or custom.

Assessment Date—The assessment date for all tangible personal property is January 1.

Situs of Tangible Property—The taxable situs of tangible personal property in Kentucky is in the jurisdiction where the property is physically located on January 1. See the enclosed listing of taxing jurisdiction in Kentucky.

Filing Requirements—To properly report, note the following:

- Kentucky does not allow consolidated and joint returns.
- File a single 61A500 tangible property tax return for all property which is located within Kentucky.
- The return and **all supporting schedules** must be included when filing the tax return, if not included the return will not be accepted as timely filed.
- File the return between January 1 and May 15.
- Complete all schedules when filing this return, failure to properly complete this form and schedules will result in the return being considered late and subject to penalties.

 **If May 15 falls on a weekend, the return is due the first business day following May 15.**

- **Do not enclose this return with the income tax return.**
- File the return with the Division of State Valuation.
- **There is no filing extension for this return.**

Payment of Taxes—Do not send payments with your return. The local taxing authorities in each county will mail the local tax bills and the state bill is billed directly by the Department of Revenue.

Lessors and Lessees of Tangible Personal Property—Leased property must be listed by the owner on Revenue Form 61A500, regardless of the lease agreement's terms regarding tax liability. ***Classify leased assets based upon their economic life.*** If the lessee is obligated to purchase the property (i.e., capital lease), he is deemed the owner. If the lease terms do not obligate the lessee to purchase the property (i.e., operating lease), the lessor is deemed to be the owner. The tax return must contain the name of the lessee and location of property. The lessee must file Revenue Form 62A500-L. Tangible property leased to local governmental jurisdictions is exempt from state and local tax under the Governmental Leasing Act. Tangible property leased to any other tax-exempt entity must be reported by the lessor. Tangible property leased from tax-exempt entities by nonexempt lessees must be reported by the lessee. **Tangible property leased by a public service company as defined in KRS 136.120 must be reported by the public service company as if they are the owner of the leased property.**

Depreciable Assets—List depreciable assets on the appropriate schedule(s) at original cost. Apply appropriate factor(s) to obtain **reported value**. Do not use book depreciation for computing the fair cash value of depreciable assets. Do not include noncommercial aircraft, documented boats and assets used in farming. See line-by-line instructions for details.

Telephonic Equipment—Telephonic equipment directly used or associated with electronic equipment which broadcasts electronic signals to an antenna should be reported on Form 61A500, Schedule B. All other equipment including radio, television and telephonic towers should be listed on Schedule A.

Inventories—List inventories at fair cash value using full absorption first-in-first-out (FIFO) costing. Such costs include freight, labor, taxes and duties. LIFO deductions are not allowable. Goods held for lease or rent may be considered merchants inventory. See line 31 instructions for details. The owner of consigned manufacturing or merchandising inventory must list the property. Kentucky merchants must list merchandise consigned by a nonresident on the Consignee Tangible Personal Property Tax Return, Revenue Form 62A500-C. For consignee reporting requirements, see the instructions for Revenue Form 62A500-C.

Foreign Trade Zones—Tangible property located within an **activated** foreign trade zone, as designated under Title 19 U.S.C. Sec. 81, is subject to a state rate only but must be included in the appropriate schedule or line of the return. Complete Schedule J for property located in an activated foreign trade zone. Attach a copy of the foreign trade zone certificate.

Enterprise Zones—Special tax advantages exist for businesses and individuals located within an enterprise zone. Counties, cities or urban county governments may, by act of the governing body of appropriate jurisdiction, levy a reduced rate on qualified property. State property taxes are not affected by this designation. If you have property within an enterprise zone, please check the appropriate box on Form 62A500, page 1. Attach a copy of your Enterprise Zone Qualified Business Certificate, which may be obtained from the local government jurisdiction. Complete 61A500(J) for property located in an Enterprise Zone.

Rebuilds or Capitalized Repairs—Cost figures for rebuilt equipment must be segregated according to “original” and “rebuild” costs and listed under two economic life classes on the tangible personal property tax return. The original cost of all assets is included in the year of acquisition in the appropriate class life. Any rebuild(s) capitalized for book or tax purposes are to be entered in the appropriate class life for the expected life of the rebuild.

Exceptions to the Fair Cash Value Computation

Taxable property inoperable and held for disposal as of the assessment date may be valued separately. List this property on Schedule C and include an affidavit explaining the circumstances and the basis for valuation. Such property is valued as follows:

- property that has been disposed of, but not written off the records, must be deducted from the original cost calculation; or
- if component parts have been removed and the remainder is useless to the business, report the actual scrap or salvage value; or
- if a visual inspection confirms that useful life has not ended, the true value is the greater of its depreciated book value or the actual salvage value; or
- property sold on or before the due date of the return through a proven arm’s length transaction, is reported at the selling price.

Temporary idleness is not sufficient cause for separate valuation. This includes idleness attributed to seasonal operation or from repair or overhaul of equipment.

Listing and Valuing Tangible Personal Property

List depreciable property on Form 61A500, Schedule A or B, based on its economic life. To assist taxpayers in determining proper economic life classification a partial listing of North American Industry Classification system (NAICS) codes is included. Property descriptions frequently used in these specific industries are listed under each code. Most businesses have property falling into more than one economic life classification.

Use the chart as a general guide.

An asset listing of each item of property must be available to the Department of Revenue upon request. The asset listing must include original cost, make, model, serial number and/or other identification numbers, and physical location (street address,

jurisdiction, county, listed on Schedule A or B, and line number on Form 61A500).

Fair Cash Value Computation

The fair cash value computation begins with cost. Cost must include inbound freight, mill-wrighting, overhead, investment tax credits, assembly and installation labor, material and expenses, and sales and use taxes. Premium pay and payroll taxes are included in labor costs. Costs are not reduced by trade-in allowances. Capitalize costs of major overhauls in the year in which they occur.

Cost should be net of additions, disposals and transfers occurring during the year. **Multiply aggregate cost by the applicable conversion factor to determine reported value.** The column totals represent the total original cost and total reported value of each class of property. Original cost totals must generally reconcile with the book cost. **NOTE:** Property written off the records, but still physically on hand, must be included in the computation.

When assets are restated/revalued due to a merger, IRC Section 338 write-up/write-down or other qualified event, taxpayers are required to list the property asset value as Age 1 following the year of revaluation. The cost reported should be the restated/revalued cost. The Department of Revenue requires that in completing this tax form and its accompanying schedules that you list the restated/revalued assets at their restated/revalued value and that their acquisition date be listed as the year that their value was restated/revalued. All assets must be placed into the proper Class Life Tables as specified by the tax form at Age 1. DO NOT use historical acquisition dates to report these restated/revalued assets.

Alternative Reporting Requirement

If a taxpayer believes the composite factors in the return have overvalued or undervalued the property, the taxpayer may petition the Department of Revenue to accept an alternative reporting method. Check the box on Form 61A500, page 1, if an alternative method of valuation is submitted. **The taxpayer must file the completed return and schedules based on the Department of Revenue’s methodology** as well the affidavit of the alternative valuation with the Division of State Valuation. The affidavit must include a proposed alternate valuation method, justification of the method chosen, any evidence that supports the proposed method, and all the forms and schedules of the 61A500 with the “reported value” being changed to the term “taxpayers valuation.” **Accepting the alternative valuation method as filed in order to expedite the processing of the return, does not affect the department’s right to audit the return and the method used.**

Instructions for Lines 11–16 and 21–26 (Depreciable Assets)

Schedule A property includes, but is not limited to:

- business furniture and fixtures;
- professional trade tools and equipment;
- signs and billboards;
- drilling, mining and construction equipment;
- mini- and mainframe computers;
- telecommunications equipment; and
- radio and television towers;
- poles and wires

Schedule B property includes:

- qualifying commercial radio, television and telephonic equipment;
- qualified pollution control facilities; and
- manufacturing machinery and computer equipment controlling the machinery.

Schedules A and B list six economic life classes. Property is classified by the expected economic life.

The age of property, whether purchased new or used, is determined as follows: property purchased in the year prior to the assessment date is age 1; purchases made 2 years prior are age 2; etc. Assets listed into Classes I, II and III, whose ages exceed the maximum age for each class (13 years), should be aggregated on "Age 13+" of the original cost column. Assets listed into Classes IV and V whose ages exceed the maximum age for each class (27 years) should be aggregated on "Age 27+" of the original cost column. As long as an asset is in use, it is valued using the appropriate factor as determined by its class and age. For Class VI assets whose age is greater than 27 years contact the Division of State Valuation for the appropriate factor. Multiply the original cost by the conversion factor to arrive at the

reported value. Add original costs for each class to determine the total original cost by class. Add reported values for each class to determine the total reported value by class. The column totals for original cost and reported value for each class of property are listed in the space provided for Schedule A and B property on Form 61A500, page 1. The grand total of original cost and reported value for all classes of property are summarized on lines 17 and 27.

Line-by-Line Instructions

The following describes the various property categories. Report these values on Form 61A500, page 1.
