Filing Requirements—To properly report, note the following:

- Kentucky does not allow consolidated and joint returns.
- File a tangible property tax return for each property location within Kentucky.
- The return must include the property location by street address and county. A post office box is not acceptable as the property address.

- File the return between January 1 and May 15.

- There is no filing extension for this return.

Payment of Taxes—Do not send payments with your return. The sheriff in each county mails the tax bills no earlier than September 15. Returns filed after the due date of the return are billed by the Division of State Valuation.

Classification of Property—Real property includes all lands within this state and improvements thereon. Tangible personal property is every physical item subject to ownership, except real and intangible property.

Lessors and Lessees of Tangible Personal Property—Leased property must be listed by the owner on Revenue Form 62A500, regardless of the lease agreement's terms regarding tax liability. *Classify leased assets based upon their economic life*. If the lessee is obligated to purchase the property (i.e., capital lease), he is deemed the owner and is required to list such property. If the lease terms do not obligate the lessee to purchase the property (i.e., operating lease), the lessor is deemed to be the owner and is required to list such property. The tax return must contain the name of the lessee and location of property. The lessee must file Revenue Form 62A500-L.

Property leased to Communications Service Providers and Multi-Channel Video Programming Service Providers under an operating lease must be reported on Form 62A500 by the lessor.

Tangible property leased by a Public Service Company as defined by KRS 136.120 must be reported by the Public Service Company as if they are the owner of the leased property.

Tangible property leased to local governmental jurisdictions is exempt from state and local tax under the Governmental Leasing Act. Tangible property leased to any other tax-exempt entity must be reported by the lessor. Tangible property leased from tax-exempt entities by nonexempt lessees must be reported by the lessee.

Depreciable Assets—List depreciable assets on the appropriate schedule(s) at original cost. Apply appropriate factor(s) to obtain reported value. Do not use book depreciation for computing the fair cash value of depreciable assets. Do not include noncommercial aircraft, documented boats and assets used in farming. See line-by-line instructions for details.

Manufacturing Machinery—List machinery actually engaged in the manufacturing process, whether owned or leased, on Revenue Form 62A500, Schedule B. Manufacturing begins at the point the raw material enters a process and is acted upon to change its size, shape or composition and ends when the product is in saleable condition. All activities preceding the introduction of the raw material into the manufacturing process and following the point at which the finished product is packaged or ready for sale are not manufacturing activities.

Inventories—List inventories at fair cash value using full absorption first-in-first-out (FIFO) costing. Such costs include freight, labor, taxes and duties. LIFO deductions are not allowable. Goods held for lease or rent may be considered merchants inventory. See line 31 instructions for details. The owner of consigned manufacturing or merchandising inventory must list the property. Kentucky merchants must list merchandise consigned by a nonresident on the Consignee Tangible Personal Property Tax Return, Revenue Form 62A500-C. For consignee reporting requirements, see the instructions for Revenue Form 62A500-C.

Automobile dealers must report all vehicles whether new, used, dealer assigned, titled, untitled, registered, or unregistered held for sale as motor vehicle inventory. Do not report Kentucky registered automobiles assessed and recorded in the Automated Vehicle Identification System (AVIS). Vehicles titled to dealers for their personal use are the only exception. List these vehicles on Form 62A500, Schedule C. All vehicles are valued at the dealer's cost. Include a list of motor vehicles with the 62A500-S1 return. The list must include make, model, year, Kentucky license plate number, if applicable, and vehicle identification number (VIN).

Farming Equipment and Livestock—Farm implements, farm machinery and livestock owned by or leased to a person actually engaged in farming are subject to a reduced state rate only.

Foreign Trade Zones—Tangible property located within an **activated** foreign trade zone, as designated under Title 19 U.S.C. Sec. 81, is subject to a state rate only. The business must file a tangible return to claim Foreign Trade Zone status. File the return with the Division of State Valuation, Department of Revenue, Frankfort, KY 40620. Attach a copy of the foreign trade zone certificate.

Pollution Control Facility—Tangible property of a qualifying pollution control facility is subject to a state rate only. A taxpayer must have an approved pollution control exemption certificate issued by the Kentucky Department of Revenue. List qualifying property on Form 62A500, Schedule B.

Fluidized Bed Energy Production Facilities—Property certified as a fluidized bed energy production facility as defined in KRS 211.390 is subject to a state rate only. Complete Revenue Form 62A500 for each fluidized bed energy production facility. The return must contain only the assessment for the facility. File the return with the Division of State Valuation, Department of Revenue, Frankfort, KY 40620. Report other tangible property on a separate return.

Enterprise Zones—Special tax advantages exist for businesses and individuals located within an enterprise zone. Counties, cities or urban county governments may, by act of the governing body of appropriate jurisdiction, levy a reduced rate on qualified property. State property taxes are not affected by this designation. If you have property within an enterprise zone, please check the appropriate box on Form 62A500, page 1. Attach a copy of your Enterprise Zone Qualified Business Certificate, which may be obtained from the local government jurisdiction.

Industrial Revenue Bonds—Tangible personal property owned and financed by a tax-exempt governmental unit or tax-exempt statutory authority, as defined under KRS 103.200, is subject to a state rate only. This includes all privately owned leasehold interests in industrial buildings owned and financed by a tax-exempt governmental unit or tax-exempt statutory authority. Report property value on Form 62A500, line 39. See line-by-line instructions for details.

Rebuilds or Capitalized Repairs—Cost figures for rebuilt equipment must be segregated according to "original" and "rebuild" costs and listed under two economic life classes on the tangible personal property tax return. The original cost of all assets is included in the year of acquisition in the appropriate class life. Any rebuild(s) capitalized for book or tax purposes are to be entered in the appropriate class life for the expected life of the rebuild. If a second rebuild occurs, the second rebuild is again included in age 1 of the appropriate class for the expected life of that rebuild. The first rebuild is then deleted from the original cost column and dropped from the valuation process.

Exceptions to the Fair Cash Value Computation

Taxable property inoperable and held for disposal as of the assessment date may be valued separately. List this property on Schedule C and include an affidavit explaining the circumstances and the basis for valuation. Such property is valued as follows:

- property that has been disposed of, but not written off the records, must be deducted from the original cost calculation; or
- if component parts have been removed and the remainder is useless to the business, report the actual scrap or salvage value; or
- if a visual inspection confirms that useful life has not ended, the true value is the greater of its depreciated book value or the actual salvage value; or
- property sold on or before the due date of the return through a proven arm's length transaction, is reported at the selling price.

Temporary idleness is not sufficient cause for separate valuation. This includes idleness attributed to seasonal operation or from repair or overhaul of equipment. Idled equipment no longer actually engaged in manufacturing is deemed to be Schedule A property and subject to full local rates.

Listing and Valuing Tangible Personal Property

List depreciable property on Form 62A500, Schedule A or B, based on its economic life. To assist taxpayers in determining proper economic life classification a partial listing of North American Industrial Classification System (NAICS) codes is included. Property descriptions frequently used in these specific industries are listed under each code. Most businesses have property falling into more than one economic life classification. **Use the chart as a general guide.**

An asset listing of each item of property must be available to the Department of Revenue upon request. The asset listing should include original cost, make, model, serial number and/or other identification numbers.

Fair Cash Value Computation

The fair cash value computation begins with cost. Cost must include inbound freight, mill-wrighting, overhead, investment tax credits, assembly and installation labor, material and expenses, and sales and use taxes. Premium pay and payroll taxes are included in labor costs. Costs are not reduced by trade-in allowances. Capitalize costs of major overhauls in the year in which they occur.

Cost should be net of additions, disposals and transfers occurring during the year. Multiply aggregate cost by the applicable conversion factor to determine reported value. The column totals represent the total original cost and total reported value of each class of property. Original cost totals must generally reconcile with the book cost. **NOTE:** Property written off the records, but still physically on hand, must be included in the computation.

GENERAL INFORMATION Revenue Form 62A500

Alternative Reporting Requirement

If a taxpayer believes the composite factors in the return have overvalued or undervalued the property, the taxpayer may petition the Department of Revenue to accept an alternative reporting method. Check the box on Form 62A500, page 1, if an alternative method of valuation is submitted. The taxpayer must file the return and affidavit of alternative valuation with the Division of State Valuation, not the local PVA. The affidavit must include a proposed alternate valuation method, justification of the method chosen and any evidence that supports the proposed method. Accepting the alternative valuation method as filed in order to expedite the processing of the return, does not affect the department's right to eventually audit the return and the method used.

For valuation information or assistance in filing this return, contact the PVA in your county (see the addresses and telephone numbers in these instructions) or the Division of State Valuation at (502) 564-2557. Go to **www.revenue.ky.gov** to download forms.

General Information—The following information is required to accurately process the return.

- Social Security number or Federal Employer Identification Number;
- NAICS code that most closely identifies your business activity;
- type of business activity;
- tangible personal property listings in other Kentucky counties (check appropriate box);
- alternative valuation (check appropriate box);
- name and address of business;
- property location (street address);
- county where the property is physically located;
- property is located in enterprise zone (check appropriate box);
- organization type (check appropriate box);
- taxpayer signature and telephone number and the preparer's (other than taxpayer) name at the bottom of Form 62A500, Schedule C.

Failure to properly complete the general information section may result in omitted property notices, subject to penalties and interest.

Instructions for Lines 11–16 and 21–26 (Depreciable Assets)

Schedule A property includes, but is not limited to:

- business furniture and fixtures;
- professional trade tools and equipment;
- signs and billboards;
- drilling, mining and construction equipment;
- · mini- and mainframe computers; and
- radio, television and telephonic towers.

Schedule B property includes:

- qualifying commercial radio, television and telephonic equipment;
- · qualified pollution control facilities; and
- manufacturing machinery and computer equipment controlling the machinery.

Schedules A and B list six economic life classes. Property is classified by the expected economic life.

The age of property, whether purchased new or used, is determined as follows: property purchased in the year prior to the assessment date is age 1; purchases made 2 years prior are age 2; etc. Assets listed into Classes I, II and III, whose ages exceed the maximum age for each class (13 years), should be aggregated on "Age 13+" of the original cost column. Assets listed into Classes IV and V whose ages exceed the maximum age for each class (27 years) should be aggregated on "Age 27+" of the original cost column. As long as an asset is in use, it is valued using the appropriate factor as determined by its class and age. For Class VI assets whose age is greater than 27 years contact the Division of State Valuation for the appropriate factor.

Multiply the original cost by the conversion factor to arrive at the reported value. Add original costs for each class to determine the total original cost by class. Add reported values for each class to determine the total reported value by class. The column totals for original cost and reported value for each class of property are listed in the space provided for Schedule A and B property on Form 62A500, page 1. The grand total of original cost and reported value for all classes of property are summarized on lines 17 and 27.

Service department motor vehicles of a motor vehicle dealer are **not** considered as Inventory—Nonregistered pick up motor vehicles, wreckers, towing vehicles, etc. used in the service department of a

motor vehicle dealer. These motor vehicles should be registered with the county clerk and property tax paid at that time. Nonregistered service department motor vehicles should be listed on Schedule A, Class III.

Property shipped to in-state destinations or held longer than six months is reported on line 35.

This property classification is exempted from state, county, school and city tax and may be subject to special district taxation.

- 37 Unmanufactured Tobacco Products not at Manufacturers Plant nor in the Hands of the Grower or His Agent—Tobacco grown in the year of assessment is exempt from taxation in that year. Such products still on hand as of January 1 of the following year would be taxable. This property is subject to a state property tax rate and a county/city tax rate
- **38** Other Unmanufactured Agricultural Products not at Manufacturers Plant nor in the Hands of the Grower or His Agent—Any unmanufactured agricultural products, other than tobacco not in the hands of the manufacturer, grower or the grower's agent, are subject to a state tax rate and a county/city tax rate.
- **39** Unmanufactured Agricultural Products at Manufacturers Plant or in the Hands of the Grower or His Agent—Any unmanufactured agricultural products actually in the hands of the manufacturer, grower or the grower's agent are subject to a state tax rate only.

Industrial Revenue Bond Property—Tangible personal property purchased with an industrial revenue bond (IRB) is subject to taxation at a state rate only. This rate shall not apply to the portion of value of the leasehold interest created through any private financing. Upon expiration of the bond, property is fully reportable on Schedules A and B at the appropriate age. The information necessary for calculation of taxable value of IRB property includes the following:

- the amount of the bond,
- the real property assessment,
- the personal property assessment,
- the life of the bond, and
- recipient of the property upon full amortization of the bond.

The valuation of industrial revenue bond personal property contemplates ownership upon full amortization of the bond issue. If the property converts to the private entity upon full amortization, the property is assessed higher as the bond ages and as the private enterprise assumes a greater leasehold interest.

The following example provides the basics of IRB property valuation:

Total industrial revenue bond value — \$11,000,000

Real property valuation — \$1,000,000

Life of the bond issue — 20 Years

The private entity receives the IRB property upon amortization of the issuance.

Total industrial revenue bond \$11,000,000 Less: Real property valuation (\$1,000,000) Tangible personal property cost \$10,000,000

All machinery purchased under the IRB must first be segregated and calculated as described for lines 11–16 and 21–26.

- Step 1: \$10,000,000 X Economic Life Factor = Reported Value
- Step 2: Reported Value X Actual Property Age/20 (e.g., life of the IRB)
- Step 3: Carry Step 2 result to Form 62A500, line 39.

Conversely, if the tax-exempt statutory authority ultimately receives the property, the assessed valuation for taxation purposes begins at 100 percent and is fully amortized over the life of the bond.

Contact the Division of State Valuation at (502) 564-2557 with questions or for additional information and instruction.

50 *Livestock and Farm Equipment*—List the fair cash value of all owned or leased farm equipment and livestock.

Fluidized Bed Energy Production Facilities—Property certified as a fluidized bed energy production facility as defined in KRS 211.390 is subject to taxation at a state rate only. See instructions for lines 11–16 to calculate the value of certified property.

60 Other Tangible Personal Property—List the totals from Schedule C on Form 62A500, line 60.

Schedule C property includes:

- aircraft for hire and non-Kentucky registered watercraft (not reported on Form 61A607);
- materials, supplies and spare parts;
- investment properties such as coin, stamp, art or other collections;
- · research libraries; and
- · precious metals.

List aircraft for hire on the appropriate line on Schedule C at fair market value.

Materials, supplies and spare parts, normally expensed, must be segregated and valued separately. Any supplies included in inventory should be removed from the inventory value and reported on Schedule C. In all cases, list such property at original cost.

Supply items are valued at original cost in the amount on hand at yearend. Returnable containers, such as barrels, bottles, carboys, coops, cylinders, drums, reels, etc., are valued separately at original cost. In absence of year end totals, use the yearly expense accounts total divided by 12. List the fair market value of all coin collections, stamp collections, art works, other collectibles and research libraries. List the number of ounces of all gold, silver, platinum and other precious metals. If the market value of a precious metal is known, list the value per ounce as of the preceding December 31 in the Value Per Ounce column. Multiply the number of ounces by the value per ounce to determine the total fair market value.

70 Activated Foreign Trade Zone—Tangible personal property located within an activated foreign trade zone as designated under Title 19 U.S.C. Section 81 is subject to taxation at a state rate only. Complete Form 62A500 using the composite conversion factors for depreciable assets.

82 Construction Work in Progress (Other Tangible Property)—During the construction period, list all tangible property that does not become part of the manufacturing process on line 82. **NOTE:** Tangible property includes contractor's building components.

If you are assuming the responsibility for the property taxes on the consigned inventory, you must report the value of such inventory on the tangible personal property tax return appropriate for your business activity. Consigned inventory must be valued using full absorption first-in-first-out (FIFO) costing. LIFO deductions are not allowable. A separate return is required for each location at which consigned goods are located. File the return as an attachment to Revenue Form 62A500.

Do not list any commercial watercraft on this return.
