\*As defined above.

If the royalty Rate is submitted as a % of the sales price, BOTH THE PERCENTAGE & SALES PRICE MUST BE LISTED!

7. Provide a USGS topographic or planimetric map(s) at a scale of 1:24,000 (1" = 2000') outlining the following information:
- Boundary lines of properties owned and properties leased under your control. Identify each ownership.
  - The area already mined.
  - The boundary of the permitted area.

The map must have a legend/title block, which in addition to the filer's name, quad and county name, and tax year, clearly explains the symbols and colors used in outlining the requested information. Base maps may be purchased from the Kentucky Geological Survey, 228 Mining and Mineral Resources Building, Lexington, Kentucky, 40506-0107, (859) 257-5500.

8. Supply any additional information (specific or general) which would aid in the valuation or impact the value of these resources. Attach additional sheets if necessary.

### VERIFICATION

Under penalties of perjury, I do solemnly swear or affirm that I have examined this report, including accompanying schedules, statements and maps, and to the best of my knowledge, information and belief, it is a true, correct and complete return. I acknowledge under these same conditions that any and all documentation supporting and/or requesting an assessment adjustment is incorporated by reference into this return and made a part hereof.

**LIMESTONE AND SAND & GRAVEL**

December 27, 2013

Dear Taxpayer:

**NOTE: THIS FORM HAS HAD SOME MINOR MODIFICATIONS FOR 2014.**

Enclosed is the 2014 Limestone and Sand & Gravel Property Tax return for your use in reporting the status of these mineral properties as of January 1, 2014.

**Please note that the return is due by April 15, 2014**, and that you must report on all mineral reserves with a life of fifteen (15) years or less under your control by ownership or lease. Under Item 6, we need your most current names and addresses of owners in leases associated with a mining operation.

The form may be duplicated to satisfy your reporting needs. Operations which extend across county lines must be reported separately for the reserves within each county. If the map information requested in Item 7 did not change since your prior filing, you do not need to supply any maps with this return. **However, a complete return must be filed each year.**

If you need assistance in completing the return, please contact our office.
