

**APPLICATION FOR PREAPPROVAL
FOR ENERGY EFFICIENCY MACHINERY OR EQUIPMENT**

IMPORTANT: Application not valid unless completed in full.

Pursuant to KRS 139.518 and 103 KAR 31:200, this application is to be completed for preapproval for new or replacement machinery or equipment that reduces the consumption of energy or energy-producing fuels in the manufacturing process at a plant facility in this state by at least fifteen percent (15%) measured in megawatts, gallons, or other measurable units of energy, while maintaining or increasing the number of units of production for that same period. This preapproval may only be applied for by a person engaged in manufacturing, and must be made **prior** to purchasing the new or replacement machinery or equipment, and the purchase date must be on or after July 1, 2008.

Applicant _____
(Manufacturer's Name)

Location Address _____

Mailing Address _____

Name of Contact (please print) _____ Title _____

Telephone Number (with area code) _____ Email Address _____

The following must be completed and documentation attached:

1. Description and use of New or Replacement Machinery/Equipment to be purchased.

2. Date the machinery/equipment will be placed in service. _____

3. Attach documentation showing the amount of energy or energy-producing fuels consumed in the 12 month period prior to this application for preapproval.

THE UNDERSIGNED HEREBY CERTIFIES: That the machinery or equipment to be purchased is to be used in their manufacturing process at their plant facility located in the Commonwealth of Kentucky. The Department reserves the right to request other information as deemed necessary.
