

Do I Need to File A Return?

Many residents file a Kentucky income tax return even though their modified gross income on the return is below the filing requirement. The information below will help you to determine if you need to file a state income tax return or if you need to change your withholding so you will not have to file an unnecessary return in the future.

If you do not anticipate any tax liability for the tax year you can file Form K-4E with your employer. This is a Special Withholding Certificate Exemption that exempts you from state income tax withholding. This form needs to be filed by those individuals whose modified gross income is less than the filing requirement as indicated below. The link to access the certificate and instructions is as follows:

If you were a Kentucky resident for the entire year, your filing requirement depends upon your family size, modified gross income, Kentucky adjusted gross income and income from self-employment. You must file if your modified gross income exceeds the amount in Chart A and your Kentucky adjusted gross income exceeds the amount in Chart B.

MODIFIED GROSS INCOME AND FAMILY SIZE (Use With Chart A)

Two.....	and \$14,570

Family Size—Consists of yourself, your spouse if married and living in the same household and qualifying children. For the purposes of computing the Family Size Tax Credit, the maximum family size is four.

Qualifying Dependent Child—Qualifying dependent child means a qualifying child as defined in Internal Revenue Code Section 152(c), and includes a child who lives in the household but cannot be claimed as a dependent if the provisions of Internal Revenue Code Section 152(e)(2) and 152(e)(4) apply. In general, to be a taxpayer's qualifying child, a person must satisfy four tests:

- **Relationship** The taxpayer's child or stepchild (whether by blood or adoption), foster child, sibling or stepsibling, or a descendant of one of these.

Modified Gross Income—Modified gross income is the greater of federal adjusted gross income adjusted to include interest income derived from municipal bonds (non-Kentucky) and lump-sum pension distributions not included in federal adjusted gross income; or Kentucky adjusted gross income adjusted to include lump-sum pension distributions not included in federal adjusted gross income.

If you presume that your income for the upcoming year will be comparable to this year's income, you may consider contacting your employer and completing form K-4E (Special Withholding Exemption Certificate). This form will allow the employer to discontinue withholding state tax from your pay. If the employer discontinues withholding taxes from your earnings, you will not have to file a Kentucky State Income Tax return. (Please be certain that you meet the criteria mentioned above to qualify for the K- 4E exemption)
