Re: Fiscal Year 2010 Budget  
Date: 05 June 2009

As all PVAs and their staff know, the current budget outlook for the 2009 – 2010 Fiscal Year is not good. Kentucky is facing an estimated shortfall of one billion dollars.

The PVA Budget is entirely composed of personnel costs for PVAs and PVA employees. If the PVA budget is to be reduced, the Office of Property Valuation and the PVA Association Budget Committee will meet to consider viable options. Current options may include:

- A reduction of staff in the local office through layoffs of an employee or employees. This may result in a claim by the former employee for unemployment benefits.
- A furlough of employees within the office for a number of days per month. This may result in a claim for unemployment benefits.
- Sending available local funds to make up the reduction required of the local PVA Office.

The PVA Budget Committee will meet next week. After that meeting, more information will be sent to all PVAs informing them of the recommendations of the Office of Property Valuation and the PVA Association Budget Committee in accordance with the directives of Governor Steve Beshear.

Please feel free to call the Office of Property Valuation or any member of the PVA Association Budget Committee with any questions you may have.

PVA Association Budget Committee Members
