

KENTUCKY DEPARTMENT OF

REVENUE

The Kentucky Department of Revenue is part of
the Finance & Administration Cabinet

The Kentucky Department of Revenue will begin the **agricultural exemption license number renewal** process on **July 1, 2026**, in order for all exemption holders to have sufficient time to complete the renewal process before the December 31, 2026, expiration date.

What to Expect

- The **renewal process will be completed online**, and we anticipate the renewal portal will open on **July 1, 2026**, at MyTaxes.ky.gov.
- You will receive a **separate letter via USPS mail** that includes your **Personal Identification Number (PIN)** and instructions for completing your renewal.
- **Beginning the last week of June**, PIN letters will be mailed in limited batches in alphabetical order to spread out renewals across several months and avoid processing backlogs. All letters will arrive **with sufficient time** to complete your renewal before the expiration date, so please begin the renewal process as soon as your letter arrives.
- To renew, you will need to **create a MyTaxes user account** by following the steps in the [user guide](#). Once your account is created, you can use your PIN to access the online renewal process.
- **Follow the instructions in your PIN letter to link your Agricultural Exemption ID**. Under *Account Type*, select **Agricultural Exemption ID**, then enter your PIN.
- Your current agriculture exemption license number authorization remains valid through **December 31, 2026**.

Check Your Mailing Address

To ensure you receive your PIN letter without delay, please confirm that your **current mailing address is on file** with the Department of Revenue.

You may verify your address in the [MyTaxes](#) online portal, or by calling 502-564-5170 for assistance.

We appreciate your attention, and we look forward to supporting your renewal process.
