Effective 1/1/2024: Per HB 360, several classes of property that were previously taxed at 1/10 of one cent state rate only were exempt from all state and local taxation. KRS 132.096 was amended to read "... (3) Tangible personal property located in a foreign trade zone established pursuant to 19 U.S.C. secs. 81a to 81u, provided that the zone is activated in accordance with the regulations of the United States Customs Service and the Foreign Trade Zones Board;" This change removed line 70 from the return.

Effective with the 1/1/2019 assessment date the conversion factors computed for Communication Service Providers and Multichannel Video Programming Service Providers used to estimate the fair cash value of the tangible personal property is utilizing the Producer Price Index.

Schedule A-1 is for the wireless industry

The following services are covered: Cellular and other wireless carriers Paging

Schedule A-2 is for the wireline industry

The primary output of this industry is the transmission of voice, data, text, sound, and video, using a wired telecommunications network, to residential and business (including government) customers. Services can be provided individually or bundled in packages of two or more services. The mode of service delivery varies by type of establishment, as voice, data, and programming services may be transmitted via cable or telephone networks.

The services for which indexes are available include:

- Local telephone service
- Public switched toll service (long distance)
- Private line service
- All-distance telephone service

REFUNDS

Pursuant to KRS 134.590(6), a taxpayer seeking a refund of taxes paid to a local taxing entity (such as a board of education) must file a refund request with that taxing entity within two years of payment of the taxes, unless the taxpayer has instituted litigation against the local taxing entity. INSTRUCTIONS
PERSONAL PROPERTY TAX RETURN
(REVENUE FORMS 61A500)
Definitions and General Instructions

This tax return includes instructions to assist taxpayers in preparing Revenue Form 61A500. These instructions do not supersede the Kentucky Constitution or applicable Kentucky Revised Statutes.

Taxpayer—All individuals and business entities who are communications service providers or multichannel video programming service providers and who own, lease or have a beneficial interest in taxable tangible property located within Kentucky on January 1 **must** file the personal property tax form for communications service providers and multichannel video programming service providers (Revenue Form 61A500).

This return and instructions do not apply to **real property, registered motor vehicles, apportioned vehicles, commercial watercraft companies, distilled spirits held in bonded warehouses and public service companies taxed under the provisions of KRS 136.120.**

Assessment Date—The assessment date for all tangible personal property is January 1.

Situs of Tangible Property—The taxable situs of tangible personal property in Kentucky is in the jurisdiction where the property is physically located on January 1. See the enclosed listing of taxing jurisdiction in Kentucky.

Filing Requirements—To properly report, note the following:

- File a single 61A500 tangible property tax return for all property which is located within Kentucky.
- The return and **all supporting schedules** must be included when filing the tax return, if not included the return will not be accepted as timely filed.
- File the return between January 1 and May 15.
- Complete all schedules when filing this return, failure to properly complete this form and schedules will result in the return being considered late and subject to penalties.

If May 15 falls on a weekend, the return is due the first business day following May 15.

- **Do not enclose this return with the income tax return.**
- File the return with the State Valuation Branch.
- **There is no filing extension for this return.**

Payment of Taxes and Refunds—Do not send payments with your return. The local taxing authorities in each county will mail the local tax bills and the state bill is billed directly by the Department of Revenue.

Refunds—Pursuant to KRS 134.590(6), a taxpayer seeking a refund of taxes paid to a local taxing entity (such as a board of education) must file a refund request with that taxing entity

within two years of payment of the taxes, unless the taxpayer has instituted litigation against the local taxing entity. Each claim or application for a refund shall be in writing and state the specific grounds upon which it is based. See also OAG 83-202 ("KRS 134.590...requires that refund requests be filed with the Department of Revenue and any other taxing district that has received these taxes (city, county, school district, etc.) within two years from the date payment was made.")

Lessors and Lessees of Tangible Personal Property—

Leased property must be listed by the owner on Revenue Form 62A500, regardless of the lease agreement's terms regarding tax liability. Classify leased assets based upon their economic life. Leases which transfer all of the benefits and risks inherent in the ownership of the property such as a capital lease should be reported by the lessee. A rental agreement which may be for any term and may be cancelable or non-cancelable for a fixed period of time and there is no transfer of ownership such as an operating lease should be reported by the lessor. The tax return must contain the name of the lessee and location of the property. **A separate return is required for each property location within Kentucky.** The lessee must file Revenue Form 62A500-L.

Property leased to Communications Service Providers and Multi-Channel Video Programming Service Providers under an operating lease must be reported on Form 62A500 by the lessor.

Depreciable Assets—List depreciable assets on the appropriate schedule(s) at original cost. Apply appropriate factor(s) to obtain **reported value**. Do not use book depreciation for computing the fair cash value of depreciable assets.

Inventories—List inventories at fair cash value using full absorption first-in-first-out (FIFO) costing. Such costs include freight, labor, taxes and duties. LIFO deductions are not allowable. Goods held for lease or rent may be considered merchants inventory. See line 31 instructions for details.

Rebuilds or Capitalized Repairs—Cost figures for rebuilt equipment must be segregated according to "original" and "rebuild" costs and listed under two economic life classes on the tangible personal property tax return. The original cost of all assets is included in the year of acquisition in the appropriate class life. Any rebuild(s) capitalized for book or tax purposes are to be entered in the appropriate class life for the expected life of the rebuild. If a second rebuild occurs, the second rebuild is again included in age 1 of the appropriate class for the expected life of that rebuild. The first rebuild is then deleted from the original cost column and dropped from the valuation process.

Exceptions to the Fair Cash Value Computation

Taxable property inoperable and held for disposal as of the assessment date may be valued separately. List this property on Schedule C and include an affidavit explaining the circumstances and the basis for valuation. Such property is valued as follows:

- if component parts have been removed and the remainder is useless to the business, report the actual scrap or salvage value; or
- if a visual inspection confirms that useful life has not ended, the true value is the greater of its depreciated book value or the actual salvage value; or
- property sold on or before the due date of the return through a proven arm's length transaction is reported at the selling price.

Temporary idleness is not sufficient cause for separate valuation. This includes idleness attributed to seasonal operation or from repair or overhaul of equipment.

Listing and Valuing Tangible Personal Property

List depreciable property on Form 61A500, Schedule A-1 Wireless or A-2 Wireline, based on its economic life. To assist taxpayers in determining proper economic life classification a partial listing of North American Industry Classification system (NAICS) codes is included. Property descriptions frequently used in these specific industries are listed under each code. Most businesses have property falling into more than one economic life classification.

An asset listing of each item of property must be available to the Department of Revenue upon request. The asset listing must include original cost, acquisition date, make, model, serial number and/or other identification numbers, and physical location (street address, jurisdiction, county, listed on Schedule A, and line number on Form 61A500).

Fair Cash Value Computation

The fair cash value computation begins with cost. Cost must include inbound freight, mill-wrighting, overhead, investment tax credits, assembly and installation labor, material and expenses, and sales and use taxes. Premium pay and payroll taxes are included in labor costs. Costs are not reduced by trade-in allowances. Capitalize costs of major overhauls in the year in which they occur.

Cost should be net of additions, disposals and transfers occurring during the year. **Multiply aggregate cost by the applicable conversion factor to determine reported value.** The column totals represent the total original cost and total reported value of each class of property. Original cost totals must generally reconcile with the book cost. **NOTE:** Property written off the records, but still physically on hand, must be included in the computation.

Alternative Reporting Requirement

If a taxpayer believes the composite factors in the return have overvalued or undervalued the property, the taxpayer may petition the Department of Revenue to accept an alternative reporting method. Check the box on Form 61A500, page 1, if an alternative method of valuation is submitted. **The taxpayer must file the completed return and schedules based on the Department of Revenue's methodology** as well the affidavit of the alternative valuation with the Division of State Valuation. The affidavit must include a proposed alternate valuation method, justification of the method chosen, any evidence that supports the proposed method, and all the forms and schedules of the 61A500 with the "reported value" being changed to the term "taxpayers valuation." **Accepting the alternative valuation method as filed in order to expedite the processing of the return does not affect the department's right to audit the return and the method used.**

GENERAL INFORMATION

Revenue Form 61A500

For valuation information or assistance in filing this return, contact the Division of State Valuation at (502) 564-8175. Go to revenue.ky.gov to download forms.

General Information—Provide the following information:

- Social Security number or Federal Employer Identification Number;
- NAICS code that most closely identifies your business activity;
- type of business activity;
- alternative valuation (check appropriate box);
- name and address of business;
- organization type (check appropriate box);
- taxpayer signature, email, and telephone number and the preparer's (other than taxpayer) name and contact information at the bottom of Form 61A500, Schedule C.

Failure to properly complete the general information section may result in omitted property notices, subject to penalties and interest.

Instructions for Lines 11–16 and 21–26 (Depreciable Assets)

Schedule A property includes, but is not limited to:

- business furniture and fixtures;
- professional trade tools and equipment;
- signs and billboards;
- drilling, mining and construction equipment;
- mini- and mainframe computers;
- telecommunications equipment; and
- poles and wires

Schedules A list six economic life classes. Property is classified by the expected economic life, not the depreciable life used for accelerated income tax purposes.

The age of property, whether purchased new or used, is determined as follows: property purchased in the year prior to the assessment date is age 1; purchases made 2 years prior are age 2; etc. Assets listed into Classes I, II and III, whose ages exceed the maximum age for each class (13 years), should be aggregated on "Age 13+" of the original cost column. Assets listed into Classes IV and V whose ages exceed the maximum age for each class (27 years) should be aggregated on "Age 27+" of the original cost column. As long as an asset is in use, it is valued using the appropriate factor as determined by its class and age. Multiply the original cost by the conversion factor to arrive at the reported value. Add original costs for each class to determine the total original cost by class. Add reported values for each class to determine the total reported value by class. The column totals for original cost and reported value for each class of property are listed in the space provided for Schedule A property on Form 61A500, page 1. The grand total of original cost and reported value for all classes of property are summarized on lines 17 and 27.

Line-by-Line Instructions

The following describes the various property categories. Report these values on Form 61A500, page 1.

31 Merchants Inventory—Merchants inventory represents goods held for sale or machinery and equipment that originated under a floor plan financing agreement. It may include retail goods, wholesale goods, consigned goods and goods held by a distributor. *Attach a separate schedule for machinery and equipment reported as inventory.*

35 Goods Stored in Warehouse/Distribution Center—Report personal property placed in a warehouse or distribution center for shipment to a Kentucky destination or held longer than six months on line 35.

36 Goods Stored in Warehouse/Distribution Center—in Transit—Personal property placed in a warehouse or distribution center for purposes of further shipment to an out-of-state destination shall be reported on line 36. The owner of the property must demonstrate that the personal property will be shipped out of state within the next six months. Property shipped to in-state destinations or held longer than six months is reported on line 35.

60 Other Tangible Personal Property—List the totals from Schedule C on Form 61A500, line 60.

Schedule C property includes:

- documented watercraft;
- aircraft for hire;
- materials, supplies and spare parts;
- investment properties such as coin, stamp, art or other collections;
- research libraries; and
- precious metals.

List aircraft for hire on the appropriate line on Schedule C at fair market value.

Materials, supplies and spare parts, normally expensed, must be segregated and valued separately. Any supplies included in inventory should be removed from the inventory value and reported on Schedule C. In all cases, list such property at original cost.

Supply items are valued at original cost in the amount on hand at year-end. Returnable containers, such as barrels, bottles, carboys, coops, cylinders, drums, reels, etc., are valued separately at original cost.

List the fair market value of all coin collections, stamp collections, art works, other collectibles and research libraries. List the number of ounces of all gold, silver, platinum and other precious metals. If the market value of a precious metal is known, list the value per ounce as of the preceding December 31 in the Value Per Ounce column. Multiply the number of ounces by the value per ounce to determine the total fair market value.

82 Construction Work in Progress (Other Tangible Property)—During the construction period, list all tangible property that "does not" become real estate. **NOTE:** Tangible property includes contractor's building components.

Schedule H: Report of Total Personal Tangible Property in Kentucky

This schedule is no longer required by the Department of Revenue

Schedule I: Summary of Gross Tangible Personal Property by Taxing Jurisdiction

This schedule is no longer required by the Department of Revenue.

Schedule J: Summary of Reported Tangible Personal Property by Taxing Jurisdiction

This form must contain a summary by the amount of reported value of the tangible personal property located in this state for each county, city and special taxing jurisdiction. **It must reconcile with Schedule H totals by classification.**

(3) Taxpayers must file Revenue Form 61A500(J) which must contain reported value of the tangible personal property in each county and for every taxing jurisdiction within that county. A list of taxing jurisdictions is available from the Department of Revenue's Web site at revenue.ky.gov and from the Office of Property Valuation, Division of State Valuation.

(4) Example: a company has a total of \$200 in reported value on Schedule A, line 17.
